DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-7 allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art (Kato et al. US 6,348,141), fails to teach or suggest a ratio of the total opening area of the inner gas inlet holes to the total opening area of the outer gas inlet holes that is greater than 1. Atsumi (US 2003/0121782) also teaches a protective cover for a gas sensor and discloses an example of the total opening area of the inner gas inlet holes equaling the total opening area of the outer gas inlet holes (ratio =1). However, Atsumi does not suggest increasing the area of the inner gas inlet holes greater than the area of the outer gas inlet holes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
